HASKELL

WHITE LLP

CERTIFIED PUBLIC ACCOUNTANTS
AND BUSINESS ADVISORS

Haskell & White LLP's SEC Roundtable Series is designed for financial executives of Southern California public and private companies as a relaxed forum to stay on the cutting edge of new developments in financial reporting and SEC regulations.

Today's accounting and finance departments are running leaner than ever, and as a result, operational efficiency has never been more critical. Whether you are an accelerated or non-accelerated filer, meeting the SEC's quarterly and annual filing deadlines without placing an unnecessary stress on the business remains a primary challenge. Companies that can successfully identify and remove the "waste" in their processes will enjoy a competitive advantage over their peers, as they drive down internal and external costs. Our SEC Roundtable will discuss current best practices and provide you with our best ideas regarding streamlining your financial reporting process.

Some of the topics we will be covering include:

- Removing waste from the financial reporting process
- Removing waste from SEC filings
- Mitigating risks
- Effective project management and coordination techniques

1 hour of CE credit will be available.
